2300AD Star Map based on *Near Star List III*

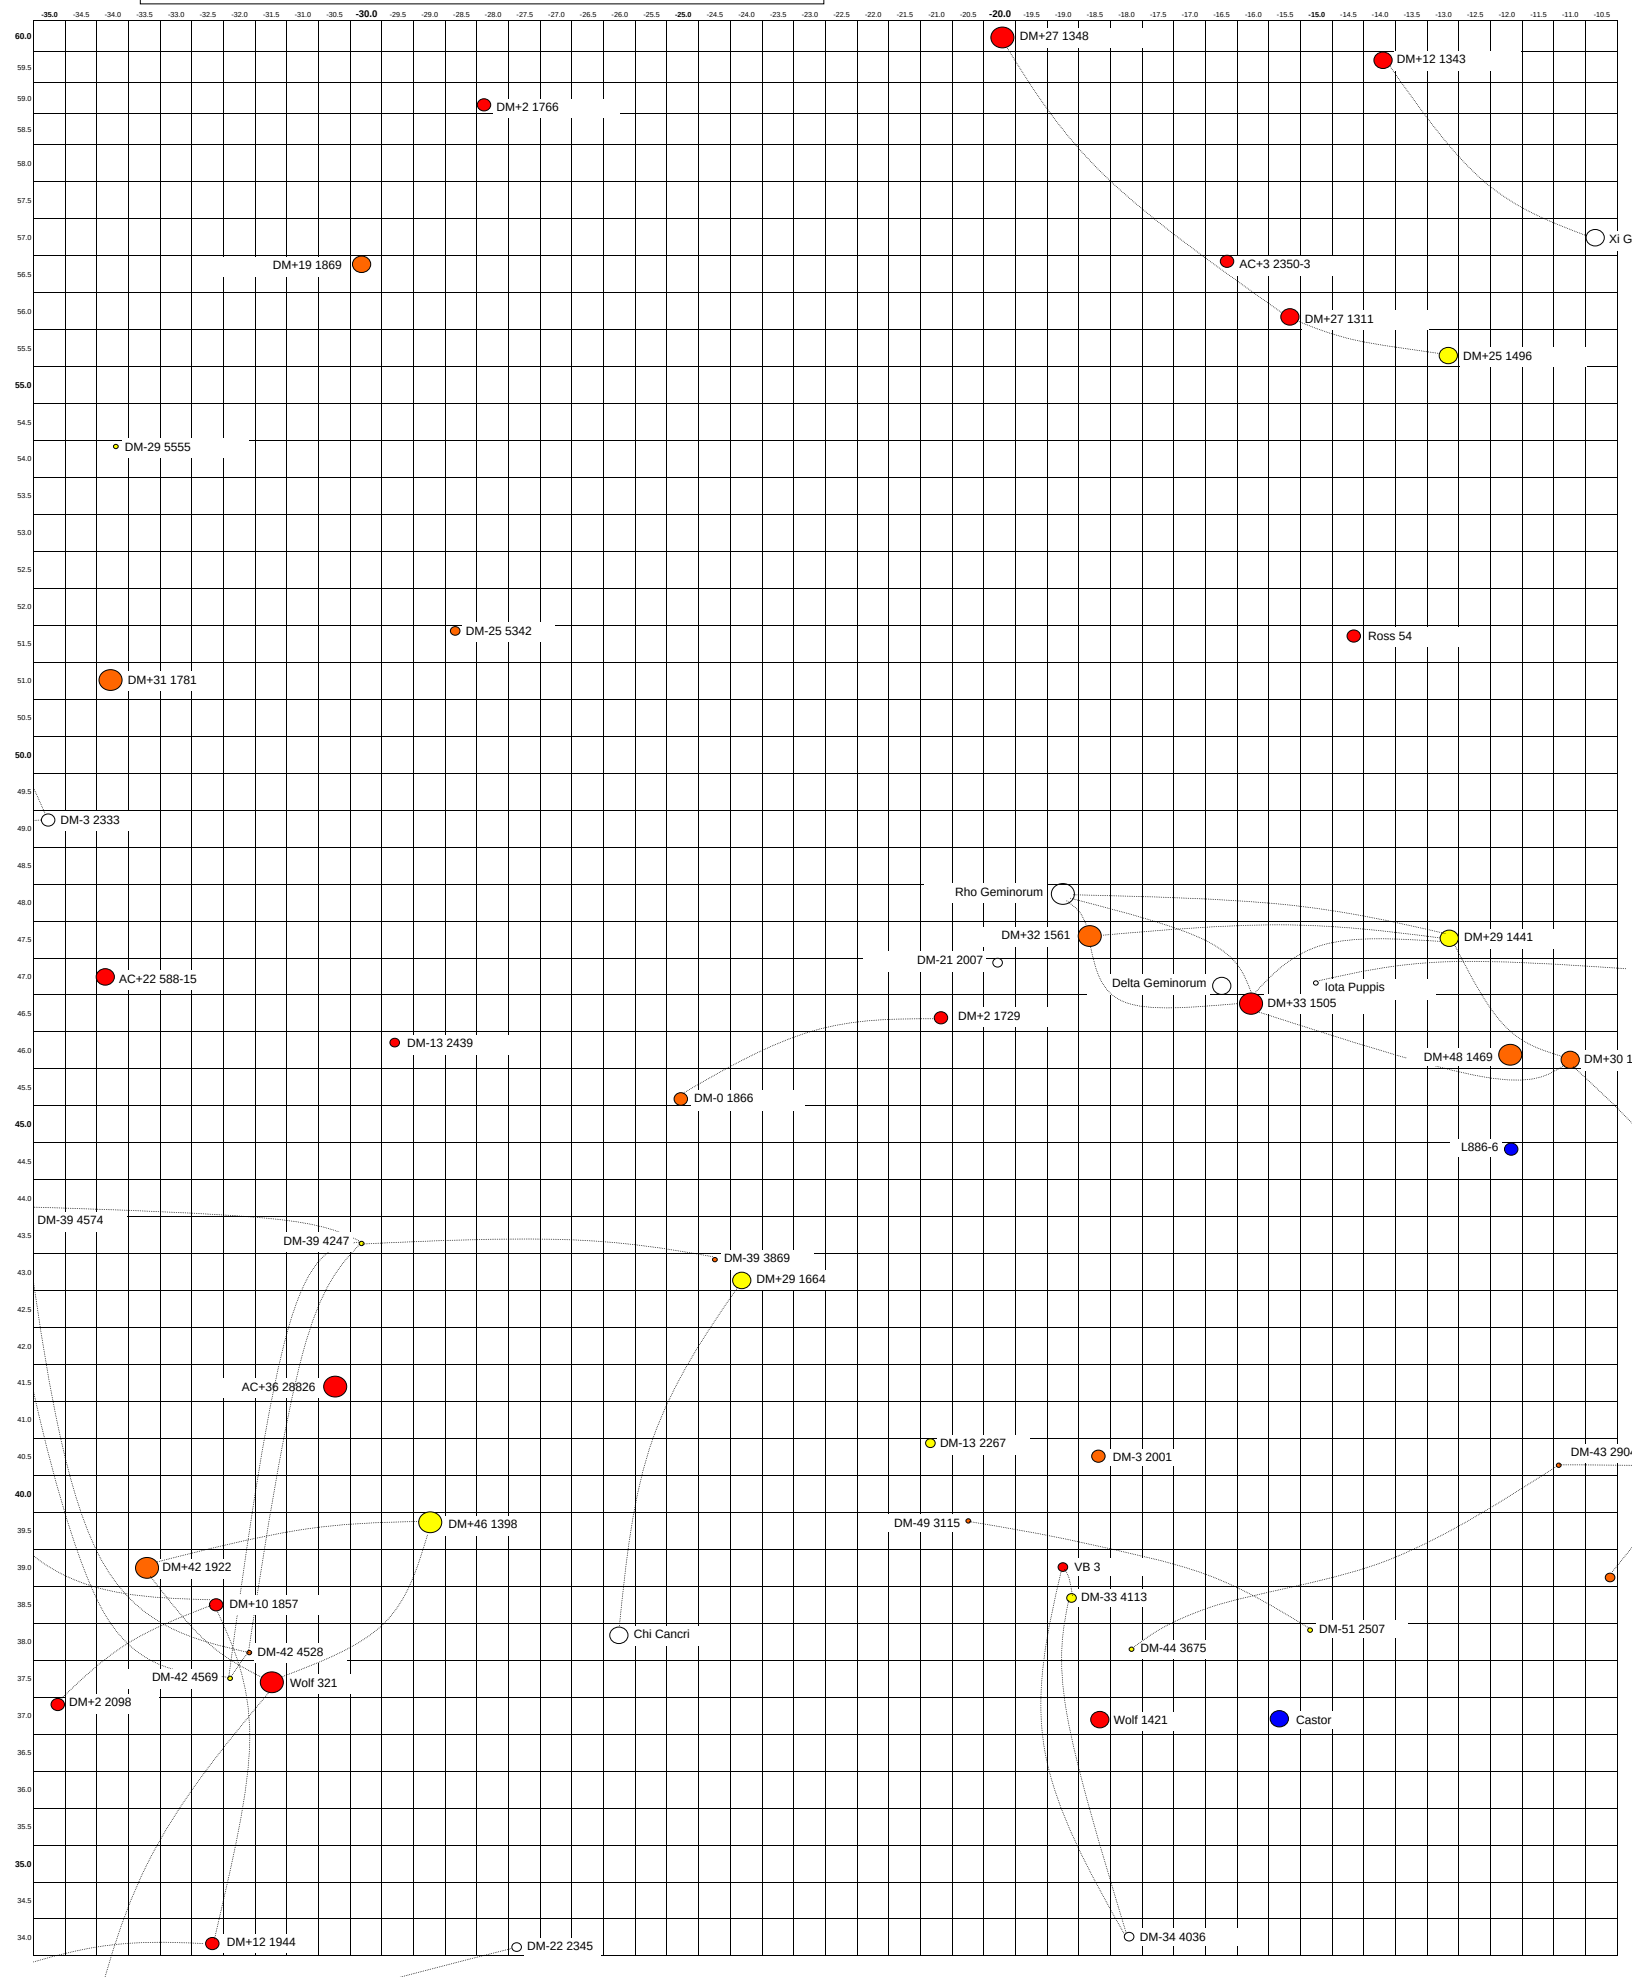
ese Arm
rican Arm
:h Arm

Notes for this Map:

This map shows all stars listed in the Near Star List III that have unique coordinates. Systems containing multiple stars show only the primary star.

This map is a variant of the Near Star List III Base Map. Certain systems that would have been added by the NSLIII have been removed to avoid radical changes to available routes in the Kafer sphere area.



Notes for this Map:

This map shows all stars listed in the Near Star List III that have unique coordinates. Systems containing multiple stars show only the primary star.

This map is a variant of the Near Star List III Base Map. Certain systems that would have been added by the NSLIII have been removed to avoid radical changes to available routes in the Kafer sphere area.
